

PRICE LIST OF ZLDM VFH – ACCREDITED TESTS

No.	Test procedure	Tested object	Price (EUR)	Number of specimens (measurements)
1	Determination of depth of cure	Polymer-based restorative materials, Class 2	175	3
2	Determination of depth of cure	Polymer-based pit and fissure sealants	175	3
3	Determination of water sorption and solubility	Polymer-based restorative materials	540	5
4	Determination of water sorption and solubility	Polymer-based crown and veneering materials	540	5
5	Determination of flexural strength	Polymer-based restorative materials	530	5
6	Determination of flexural strength	Dental water-based cements - Resin-modified cements	530	5
7	Determination of flexural strength	Polymer-based crown and veneering materials	530	5
8	Determination of compressive strength	Dental zinc oxide-eugenol cements and non-eugenol zinc oxide cements	350	5
9	Determination of compressive strength	Pre-capsulated dental amalgam	390	5+5
10	Determination of compressive strength	Dental water-based cements - Powder/liquid acid-base cements	350	5
11	Determination of creep	Pre-capsulated dental amalgam	290	3
12	Determination of shear bond strength	Dental materials - Adhesive systems (dentin + enamel)	1760 (D+E)	15(D)+15(E)
13	Check of reproduction of details and compatibility with gypsum	Hydrocolloid impression materials	290	3+3
14	Check of reproduction of details and compatibility with gypsum	Dental elastomeric impression material	485	5+5
15	Determination of working time and appearance evaluation	Pre-capsulated dental amalgam	170	3+1
